

Logistics

Key arguments to invest in the Hungarian logistics sector

- ✓ Strategic position in the heart of Europe
- ✓ Access to a labour pool of young and highly qualified logistics experts
- ✓ Large selection of development areas fully equipped with necessary utilities and telecommunications infrastructure
- ✓ Continuous development to promote combined transportation
- ✓ Access to EU-financed state support and special incentives if the investment value exceeds EUR 10 million
- ✓ Make your presence in Hungary! Some others have already...

✓ Strategic position in the heart of Europe

Given Hungary's strategic position in the heart of Europe, as well as its role as one of the most important transport nodes in the Central East European region, an ever increasing attention is being devoted in Hungary to first-class logistics services that help companies reduce production costs, add higher value to their activity and raise the level of their services.

✓ Access to a labour pool of young and highly qualified logistics experts

Hungary is home to an abundant number of young, highly qualified logistics experts with strong educational background and outstanding professional experience. Click [here](#) and learn more about the Hungarian labour market...

✓ Large selection of development areas fully equipped with necessary utilities and telecommunications infrastructure

Logistics investors can choose from a wide variety of development areas fully equipped with the necessary utilities and telecommunications infrastructure: logistics and industrial parks, modern warehouses that are also located further from Budapest, the capital, in areas of geographical importance.

✓ **Continuous development to promote combined transportation**

Continuous development is underway to improve the conditions of combined forwarding. 13 intermodal logistics centres serving at least two transport modes operate in Hungary.

✓ **Access to EU-financed state support and special incentives if the investment value exceeds EUR 10 million**

Logistic investments are eligible for mainly EU-financed state support, as well as for special incentives in the case of projects with investment value above EUR 10 million. Click [here](#) and learn more about available incentives for logistics investments...

✓ **Make your presence in Hungary! Some others have already...**

The Hungarian market of logistics service providers consists of several multinational and Hungarian-owned companies offering complex logistics services. Significant multinational producing and trading companies have established their logistics/distribution centres in the country (eg. GE, Renault-Nissan, General Motors, National Instruments, Tesco, Philips).
